

Replacement Sheet

1/8

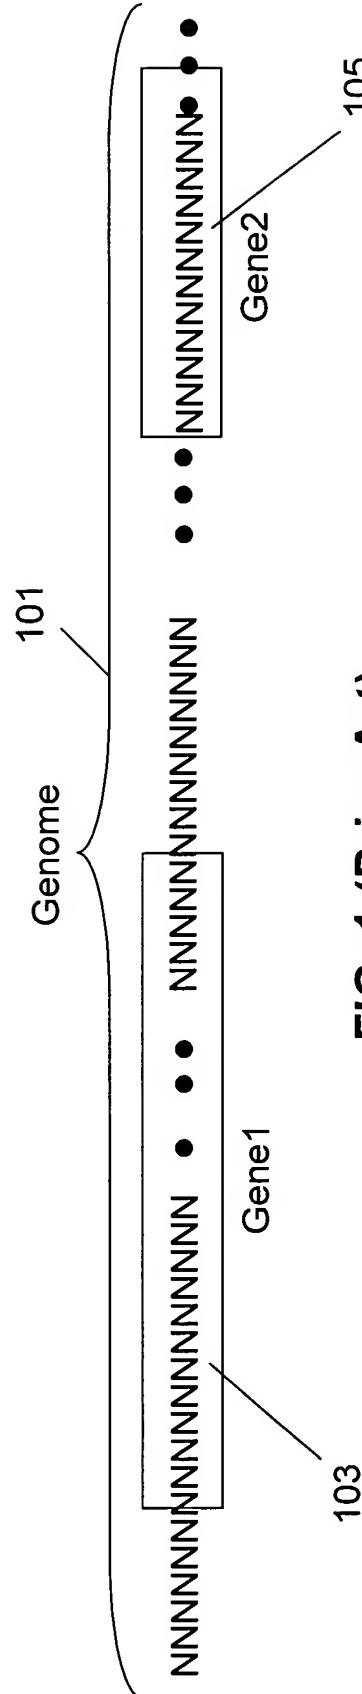

FIG. 1 (Prior Art)

A table showing gene expression levels. The columns are labeled 'Gene1', 'Gene2', 'Gene3', 'Gene4', and 'Gene5'. The rows are labeled 'Condition1' and 'Condition2'. The table contains the following data:

	Gene1	Gene2	Gene3	Gene4	Gene5
Condition1	4	2	8	1	7
Condition2	1	3	2	1	8

Numbered callouts point to specific cells: '205' points to the empty cell for Gene1 in Condition1; '206' points to the '4' in the Gene1 cell of Condition1; '207' points to the '2' in the Gene2 cell of Condition1; '208' points to the '8' in the Gene3 cell of Condition1; '209' points to the '1' in the Gene4 cell of Condition1; '201' points to the '1' in the Gene1 cell of Condition2; and '203' points to the '3' in the Gene2 cell of Condition2.

FIG. 2 (Prior Art)
